AT A GLANCE

- Serves up to 25 simultaneous Kaleidescape high-bitrate 4K movies
- Terra Prime SSD can download a 4K movie in as little as four minutes
- Kaleidescape 4K movies have lossless audio and reference video
- All movies are stored securely and protected by cloud backup
- Terra movie servers enable large configurations
- Terra Prime SSD 31TB stores ~500 Kaleidescape high-bitrate 4K movies
- Up to four Terra servers can be combined for more storage

Terra Prime Solid-State is the fastest and quietest movie server available, the ideal choice for marine and state-of-the-art installations.

The new Terra Prime Solid-State is the only dedicated movie server with 2.5 Gigabit Ethernet and data center grade solid-state drives, enabling the fastest downloads and the most simultaneous movie playbacks.

Made in the USA, Kaleidescape movie servers are custom designed and manufactured for reliable, premium performance that other solutions can't guarantee.

Kaleidescape's operating system (kOS) is custom developed, managed, and controlled internally, with automatic updates, providing the best experience of any movie server on the market.

Terra Prime Solid-State movie servers can download a Kaleidescape high-bitrate 4K movie in as little as four minutes, with properly configured 2.5 Gbit/sec capable networking, hardware, and ISP.
